

Powering Sustainability
Since 2008

Hydromo – Powering Sustainability Since 2008

Water / Renewables / Enablers / Curated Solutions For Hospitals & Builders

Founded in 2008, Hydromo has grown into one of India's top 10 companies in the water and renewable energy sectors. For over 17 years, we've been driven by one purpose, to make clean water and sustainable energy accessible, efficient, and affordable across industrial, commercial, and residential spaces.

Why Choose Hydromo?

Unlike standard ready-made setups in the market, Hydromo designs systems that adapt to your goals, whether it's a tight project timeline, unique site constraints, or advanced performance targets.

Customisation

We don't believe in one-size-fits-all. Every solution we provide is **designed, engineered and customised** to match your specific needs, space, and budget.

Quick Installation

Our expert teams ensure fast turnaround without compromising quality.

Modern & Future-Ready Tech

From tried-and-tested solutions to deploying the latest innovations – even if introduced today – we're ready to integrate what works best for you.

Lifetime Support

From the day of installation, we're with you – offering maintenance, technical assistance, and performance monitoring for long-term peace of mind.

Water Treatment Plants

The 3-Stage Filtration Process.

- Glass Media | Activated Carbon | Resin

Reverse Osmosis

High-purity water ideal for sensitive industrial & commercial needs

Softeners

Prevents scale buildup & extends appliance life.

Ultra Filtration

Clears turbidity, Suspended Solids & Pathogens.

Desalination

Converts seawater into drinkable water with energy-efficient systems.

Dialysis

Superior purity using Electro-Coagulation technology.

RO with Chillers

Converts seawater into drinkable water with energy-efficient systems.
